RE: Transition Initiation Plan - Fixed Wireless Holdings LLC
Transition of the 2500-2690 MHz Band for BRS and EBS
Transition Area: BTA Number 177: Greenville-Spartanburg, SC

Dear Ms. Dortch:

Fixed Wireless Holdings LLC, a wholly-owned subsidiary of Clearwire Corporation (together "Clearwire"), has completed an assessment of BRS and EBS facilities for transition to the new band plan for the Greenville-Spartanburg, SC BTA, BTA Number 177. Pursuant to Section 21.1231 of the Commission's Rules, Clearwire hereby desires to initiate its plan as the Proponent to manage the spectrum transition of all licensees within the Greenville-Spartanburg, SC BTA.

Initial information regarding all existing BRS and EBS facilities has been obtained through research of the Commission's databases and through data provided by EBS licensees in response to the Pre-Transition Data Request ("PTDR") Clearwire sent to them. In addition, a Transition Notice explaining Clearwire's intent to convert the band was sent to all licensees within the above-referenced BTA on 19 March 2007.

List of Facilities to be Transitioned:

A list of BRS and EBS facilities to be transitioned by Clearwire under this plan is attached in Exhibit 1.

Transition Schedule:

Clearwire has compiled its transition strategy for the most efficient and least disruptive conversion of facilities to the new band plan. Pursuant to Section 21.1231(f)(1)(iii), Clearwire's best estimate as to when the transition will be completed is by 30 December 2007.

Page 2

Agreements With Adjacent BTA Proponents:

Clearwire already has been designated as the proponent for adjacent BTA #74, Charlotte-Gastonia, NC. A preliminary engineering analysis revealed potential interference conflicts between facilities of BTA #177 and facilities within BTA #74. To avoid the potential for harmful interference between these two BTAs, Clearwire has determined that it is necessary to transition the Greenville-Spartanburg, SC BTA pursuant to Section 27.1231(f)(1)(iv).

Co-Proponent Agreements:

Clearwire does not have any agreements or arrangements with other entities for more than one Proponent to transition the BTA.

Financial Commitment:

Based on information gathered through the PTDR responses, along with its extensive research and experience in EBS and BRS facility construction and operation, Clearwire has prepared an initial budget of financial and technical resources to adequately and competently complete the spectrum transition.

The preceding information has been compiled by Clearwire based on its best efforts to ascertain the programming and technical requirements for existing authorizations/operations in the transition area. Should additional information become available that causes the plan to materially change, Clearwire will notify the Commission accordingly.

Pursuant to Section 27.1231(f)(1)(vi) of the Commission's Rules, Clearwire has enclosed the certification regarding the availability of funds to pay transition costs.

If you have any questions regarding this matter please contact Brandon Bullis, Director of Spectrum Development, at (202) 351-5021 or the undersigned at (202) 429-0107.

Sincerely,

Terri B. Natoli
